## Office's Reasons for Allowance

COMRES NOW the Patent Office, by a Patent Examiner and opines at least a reason for the allowance of this Application, to wit: the prior art neither anticipates or in any reasonable combination suggests the steps of manufacturing a male terminal fitting which comprises the steps of preparing a blank sheet of elongated conductive metal sheet, stamping the elongated met al sheet o form a plurality of sequentially arrayed terminal fittings, in developed states, which are integrally are integrally connected to a carrier, each of the terminal fittings including a conductor clamping portion extending from the carrier, a clamping body connected to the conductor clamping portion, and a plate-shaped contact protrusion which is composed of a base plate component longitudinally extending from the conductor clamping portion via the clamping body, a flatness securing plate component laterally extending from one side of the base plate component, and an overlapping fold plate component laterally extending from the other side of the base plate component and forming the conductor clamping portion, the clamping body and the plate-shaped contact protrusion into respective final shapes, wherein after the forming step the flatness securing plate overlaps with the overlapping fold plate component to ensure flatness conditions of the base plate component and the overlapping fold plate component.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. J. Arbes whose telephone number is 571-272-4563. The examiner can normally be reached on M, T, R and F from 8 to 6.
